Dr. Martin
Associate Professor of Mathematics and Chair
Data Science, Mathematics
DTS 350: Data Visualization
500 College Hill
Liberty, MO 64068

Dear Dr. Martin,

I am writing this to you to explain as to why I believe I deserve an A in DTS 350. With the way this class was set up, I made it my constant goal to complete all assignments on time and were completed to the best of my abilities. I constantly utilized office hours and the communication system you provided on Microsoft Teams. Throughout this course, I learned how to communicate, and how important it is to work with peers. I also believed I learned how to work well with the pressure of Coding Challenges and I believe these skills will be necessary in the future.

In the enclosed resume, I added everything I had learned this semester along with my other skills I have received while I have been at Jewell. I truly loved this class this Semester and I believe it has helped me love what I do.

I look forward to meeting with you to further discuss my grade in DTS 350: Data Visualization

Sincerely,

Haleigh Borich
